

This page will provide four standing notice cards: Print onto light card; Cut out the cards using the black lines as a guide; Fold the cards in half using the red lines as a guide. You will then have four cards to use in your guest bathrooms.

Hospitable Climates is an initiative promoted by the Hotel and Catering International Management Association and the UK Government. It aims to improve energy efficiency in the hospitality industry and principally covers energy usage, water usage and waste management. Efficient use of these resources can be of benefit to the environment and help reduce global warming.

play a part in

saving the environment

Imagine the energy consumption and water used to wash hotel towels unnecessarily around the world. Not to mention the pollution from detergents to our seas and lakes.

Help us to reduce waste, pollution and carbon emissions which contribute to global warming.

If you think you can use your towel for another day, please hang it on the towel rail. If however, you would like it changed, please place it on the floor.
